Summary

Full Stack Developer (CSE '29) building and deploying web applications end-to-end, including a live product used by 500+ monthly users. Open Source Contributor with 5 merged PRs across 2 projects through GSSoC 2026, currently contributing to Hacktoberfest 2026. Long-term interest in AI engineering.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python
Frontend: React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, Firebase
Tools & Platforms: Git, GitHub, Vercel, Render, Netlify, Google Search Console
Auth & Payments: NextAuth.js, Firebase Authentication, Role-Based Access Control, Razorpay

Experience

WordPress Developer Intern | GAOTek Inc. | Remote *(Jun '25 – Aug '25)*

- Designed and built 3 WordPress UIs from scratch, creating original layouts and navigation flows.
- Earned 3 promotions in 3 months — Assistant Squad Leader → Squad Leader → Platoon Leader — within a 180-intern cohort, while reviewing intern tasks and coordinating team meetings.

Open Source Contributor | GSSoC '26 *(May '26 – Aug '26)*

- Merged 5 PRs across 2 repositories, contributing UI improvements, new features, and responsive fixes to open-source codebases.
- Ranked in the top 1% among 50,000+ GSSoC contributors, with contributions to projects including CODEVIBE and Eventra.

Projects

StatKarmyog — AI-Powered Competency & Learning Platform | Live

React · FastAPI · Python · Google Gemini · LangChain · ChromaDB · Sentence Transformers

- Built the React/Vite frontend and dashboard workflows, integrating FastAPI REST APIs for competency assessment and skill-gap analysis.
- Implemented AI-generated quizzes with Google Gemini and integrated competency tracking, evidence submission, reassessment, and learning workflows.
- Deployed the platform on Vercel and Render, integrating AI services, REST APIs, and asynchronous processing.

VBSPU PYQ Hub — University Question Paper Platform | Live

HTML · CSS · Tailwind CSS · JavaScript · Node.js · Express.js · Firebase Firestore · Razorpay

- Reached 500+ monthly users and 10K+ downloads, providing access to 100+ university question papers.
- Built dynamic Firestore-based paper retrieval and sorting with direct PDF access; integrated Razorpay payments with server-side verification.
- Managed deployment, domain, and SEO, including Google Search Console.

Get-Me-A-Chai — Creator Support & Crowdfunding Platform | Live

Next.js · React · Tailwind CSS · NextAuth.js · MongoDB · Mongoose · Razorpay

- Built and deployed a full-stack creator-support platform with username-based public profiles, creator dashboards, and responsive interfaces.
- Implemented Google and GitHub OAuth authentication using NextAuth.js with MongoDB/Mongoose user management.
- Integrated Razorpay with per-creator configuration, so each payment routes to that creator's own account.

Attendance Sarthi — Real-Time Attendance Management System | Live

Next.js · React · Tailwind CSS · Firebase Authentication · Firestore

- Built a role-based attendance platform for students and Class Representatives, supporting subject management, daily scheduling, attendance tracking, and performance analytics.
- Implemented Firebase Authentication, role-based access, and real-time Firestore synchronization using listeners, enabling live schedule and attendance updates without page reloads.

Education

Veer Bahadur Singh Purvanchal University *Jaunpur, India*
B.Tech - Computer Science & Engineering : **CGPA: 8.30** *(Aug '25 – May '29)*

Achievements

- **Adobe University Hackathon 2026**: Cleared 2 rounds among 3 lakh+ registrations, with the team shortlisted among the top 416 teams.
- **Smart India Hackathon 2026:** Ranked #1 in the internal selection round among 50+ teams and 300+ students.
- **LinkedIn Learning Series:** Completed two self-initiated series — 30 Days of Productivity and Learning Just by Building.
